

Klove christian radio is a wonderful alternative to trash radio today. I have three children and when we are in the Phoenix area, listening to uplifting encouraging music that doesn't tear down our spirits is what we need. The community in Phoenix and surrounding areas need this radio station to give them positive encouraging music to lift their day-focus on positive issues, and to fill their spirits.

The message K-love brings is positive for the public interest. The message is one of loving others, helping others, loving Jesus, just being positive for our community. Those thoughts I would think you would rather have than messages of hate and crime and degradation of humanity. Please don't take K-love off the air!
